SPEC SHEET

COMFORT FIT

The foot form ("last") used to construct these boots has been designed for maximum comfort and accurate fit. A larger, naturally shaped steel toecap is used to allow complete freedom of toe movement. The heel area is anatomically tapered to hold your heel snugly and comfortably in place, eliminating "heel slip".

COMFORT FIT WITH ORTHOLITE®

The Comfort Fit System is built upon a removable Ortholite® footbed that is breathable, long-lasting and durable. Below the footbed is a high-density polyurethane midsole which absorbs energy and provides cushioning.

OrthoLite®
comfort from the inside out

RUBBER FIREFIGHTER BOOT
