Veridian Turnout Gear

Velocity Series

Designed for rapid response. Velocity's ergonomic design is engineered to provide fire-fighters with an unrestricted full range of motion. Ultra Flexknee triple pleated trousers provide unsurpassed comfort. Velocity's Ultra Flexwing expanded back coat delivers a bind free reach. The flex elbows adds outer shell pleats combined with liner darts to provide a natural contour at the elbow, while complementing the integrated seamless underarm bellows. Engineered with minimal seams for maximum durability.

Viking

MACS Turnout Gear

- Turnout gear that's got your back.
- The increased cancer risk among firefighters is a major concern all over the world – and when you are out on a call, your turnout gear is often exposed to dangerous particles.
- Viking has developed and tested a tactical solution for the next generation of protection, with the new MACS gear, you remove the contaminated outer shell after putting out the fire, leaving the liner as a wearable and weather protective suit for the road home.
- Personalize your gear like never before!
- Inspired by the flexibility of modern combat gear, Viking MACs has a modular personalization system of webbed loops, allowing you to place pockets, pouches, or other accessories right where you want them.

Viking

502004

Haix**Fire Hunter Boots**

Perfect choice for a tight budget! Waterproof and breathable leather with sun reflect.

Item #	Price
502004	\$345.80

501605

Haix**Fire Hunter Xtreme Boots**

The service boot that has the comfort of a lace boot. Waterproof and breathable and offers chemical and blood borne protection.

Item #	Price
501605	\$432.50

507502

Haix**Fire Eagle Air Boots**

Today's fire ground is not the same as those of the past. Lighter weight building materials makes for structures that can be more unstable and require quick changes in response. The new Fire Eagle® Air sets the standard for the modern-day firefighter.

Lighter in weight and slimmer in design than all of its predecessors, the Fire Eagle® Air has an athletic fit and feel, yet offers the highest degree of protection when on the frontline of a firefight. Fire Eagle® Air will keep you lighter and quicker on your feet and more responsive to the fire. From the very first step in the Fire Eagle® Air you will feel that rare combination of comfort and safety that is the hallmark of a HAIX® boot.

Item #	Price
507502	\$441.15

0912

Black Diamond**X2 Leather Boots**

Removable insoles accommodate medium, wide, and extra wide widths in one boot size. A 3-point heel locking system reduces heel slippage to increase mobility while keeping your foot in place. The footbed is made with TPU heel cradle for comfort, anti-odor, anti-fungal, breathable and shock absorption for overtime comfort.

Item #	Price
0912	\$336.00

507101

Haix**Fire Hero Xtreme Boots**

Features an ankle flex system for foot and ankle support. Extremely slip resistant and has comfortable bootstraps and padded shins.

Item #	Price
507101	\$449.80

605113

Haix**XR1 Airpower Boots**

The XR1 is a dual certified wildland firefighting and EMS boot. It is waterproof and breathable with the added benefit of chemical and blood borne pathogen protection.

Item #	Price
605113	\$328.50

506005

Haix**Fire Flash Xtreme**

Fire Flash Xtreme is a great alternative for those hard to fit guys who have trouble stepping into pull on bunker boots. These structural fire boots can accommodate wider calves and/or ankles with its adjustable built in lacing system. With the easy run lace/zip system, you can be assured that you can step quickly in and out, especially with the added pull tab at the back. Flex zone construction around the tongue ensures you will still have the flexibility to perform the job at hand.

Item #	Price
506005	\$467.15

9451

Black Diamond**Rubber Boots**

Designed for maximum comfort and an accurate fit. The Enersole System includes a high-density polyurethane midsole that absorbs energy. The second layer of comfort includes an Ortholite breathable polyurethane footbed that provides all-day comfort. The footbed fabric cover absorbs perspiration and is removable for fast drying.

Item #	Price
9451	\$165.00

111005

Haix

Missoula Boots

The Missoula was built especially for the wildland firefighter and hiker. The lighter weight alleviates leg fatigue, since the less weight you have on your feet, the less energy you have to expend while walking. Haix®

Missoula uses thicker, breathable European leather and minimal seaming to increase stability and durability.

Item #	Price
111005	\$298.15

330016

Haix

Black Eagle Athletic 2.1T Low Shoe

The new Black Eagle Athletic 2.1T Low version has an extremely breathable,

softer microfiber design that will keep feet drier and more comfortable even after long hours in the heat. HAIX® has also given the lace pocket flap on the tongue a more streamlined look, allowing the laces to be stored tightly and out of the way so they don't get caught up and become a tripping hazard. And because it's metal free, you can wear it anywhere even when working around metal detectors.

Item #	Price
330016	\$123.20

06004

Icetrekkers

Diamond Grips

Diamond Grips provide aggressive traction for all winter walking conditions. They are also effective when transitioning through gravel, rock, and mud from icy surfaces. Made of case hardened steel alloy, and

strung on steel aircraft cable, the patented Diamond Beads have hundreds of biting edges that grip in all directions. The bead assemblies are riveted to a tough rubber sling which remains elastic in subzero temperatures. They are easy to put on and take off, yet fit snugly and stay on without the need for additional straps. Diamond Grips are also self-clearing, so there is no snow or ice build up.

Item #	Size	Price
06004	5-6	\$45.50
06005	6.5-9	
06006	9.5-12.5	
06007	13 - up	

620006

Haix

Black Eagle Safety 52 Mid Shoe

The lightest safety shoe from Haix®, the Black Eagle Safety 52 includes sun reflect technology that reflects the sunlight to reduce the heating effect of the upper leather and keep your feet

cool. A breathable, moisture-wicking insole adds more cushioned comfort to these boots. Pronation support helps your lower leg handle shock by following the natural movement of your foot while you walk or run. Waterproof leather construction features a durable slip-resistant sole for heel-to-toe control in all climates.

Item #	Price
620006	\$220.15

BOPS6001

Black Diamond

Battle Ops 6-inch Waterproof Tactile Boot

Battle-OPS offers a new station boot that is waterproof, but it lets your feet breath. It offers heel comfort pods to secure the ankle

for a perfect fit, it also has removable inserts and provides more toe room for comfort. The toes on these boots are easy to polish for uniform coordination. The boots are approved by the American Podiatric Medical Association.

Item #	Price
BOPS6001	\$76.95

06060

Icetrekkers

Chains

Icetrekkers Chains are like tire chains for your feet, perfect for all ice and snow conditions. Chains can be used on a variety

of footwear and are comfortable for extended wear. The square links are individually TIG welded and made from casehardened steel, enhancing traction on ice while still providing dependable traction on snow. The durable rubber sling is flexible in sub-zero temperatures and stays securely on footwear even in deep snow.

Item #	Size	Price
06060	5-6	\$25.50
06061	6.5-9	
06062	9.5-12.5	
06063	13 - up

Harrington Hose Washers

Accommodates hoses up to 5" using incoming inlet pressure of only 60 PSI. Self-feeding design.

Item #	Description	Price
HHW-300	Washes up to 3" Hose	\$625.00
HHW-500-25NH	Washes up to 5" Hose	\$966.00

RRHW

Ready Rack Hose Washer

The hose washer has no pedals to hold down, resulting in an easy one-person operation. Drive motor powers the washer brushes and exit squeegees for an automatic feed. The water boost pump pressurizes a standard

garden hose to 300 psi for powerful cleaning. Two 10" Nylon Scrub Brushes provide a deep and thorough scrubbing. With a speed of 25 ft./min and the ability to wash and rinse in one process, there is a faster cleaning time. It cleans hoses up to 4" in diameter.

Item #	Description
RRHW	\$14,305.00

HC-64-2T

HC-64-3T

Ready Rack

Mobile Hose Carts

Save time and eliminate back strain from carrying hose. Four heavy-duty brake casters allow for ease of rolling and hold the cart in place when loading or unloading. Heavy-duty steel rails with a durable red powder coat finish.

Item #	Description	Price
HC-64-2T	72" Two Tier (holds 1,300 lbs.)	\$1,881.00
HC-64-3T	72" Three Tier (holds 2,000 lbs.)	\$2,168.00

JAFLINE HD

ATI Hose Jafline HD Hose

ATI'S JAFLINE HD is a synthetic, double-jacket fire hose that is available in white, blue, yellow, tan, green, red and orange. JAFLINE HD has a rubber lining, offering excellent resistance to ozone. This synthesized rubber is also more resistant to abrasion and oxidation than natural rubber. The outside jacket is impregnated with a high-tech polymer, offering excellent resistance to moisture and abrasion. JAFLINE HD is available in lengths of 50 and 100 feet and can be coupled with NST, NPSH or other, special order couplings. Shorter lengths are available by special order.

JAFRIB-LDH

ATI Hose JAFRIB LDH Rubber Cover Hose

ATI'S JAFRIB large diameter hose is a synthetic, single-jacket hose with a nitrile/PVC rubber lining and cover. JAFRIB is made in a single extrusion, eliminating the risks of jacket separation. The outside jacket offers superior resistance to acids, alkalis, oils, gasoline and ozone. JAFRIB is available in red and yellow, in lengths of 50' and 100' and can be coupled with NST, NPSH, Storz or other, special order couplings. Shorter lengths are available by special order.

ARMTEX HP

ATI Hose ARMTEX HP Hose

ARMTEX is widely used by industrial fire brigades. The hose is made from 100% high tenacity synthetic yarn, circular woven and completely protected by an extruded through-the-weave synthetic rubber, forming a single homogenous construction without the use of glues or adhesives of any type. The ultimate tensile strength of the lining and cover shall be not less than 1,750 p.s.i., with an ultimate elongation of 450% minimum.

HHGV-25NH-25NH

Harrington Hydrant Gate Valve

This gate valve with a non-rising stem is excellent for hydrant and other water control. There is a spinning knob on the hand wheel for easy open/close, with a built in slow close safety operation. Lightweight anodized all metal corrosion resistance construction and a stainless steel spindle.

Item #	Price
HHGV-25NH-25NH	\$263.00

H500S

Harrington

Stainless Steel Piston Intake Valve with Relief Valve

Traditional piston intake valve design used for pumper intake control. Features a 30 degree integrated elbow, a field adjustable pressure relief valve, and an air bleeder valve. There is a stainless steel piston, sleeve, and spindle for corrosion protection or brass piston and sleeve for extra corrosion resistance.

H202-25NH-25NH	2.5"F x (2) 2.5" M	\$375.00

Harrington Hydrassist Valve

For boosting pressure on long hose lays or for boosting low hydrant pressures. The lightweight hydrant valve enables the

first-in pumper to lay LDH directly from the hydrant to the fire and when hose lay is completed, start flowing water from the hydrant. If additional pressure is required, another pumper can connect to the Hydrassist valve and start pumping to raise pressure and flow without interrupting the established water supply. The valve provides an emergency shutdown capability.

Item #	Description	Price
H700-40-45NH	4.5"NH F Long Handle x (3) 4" Storz	\$1,688.00
H700-50-45NH	4.5"NH F Long Handle x (3) 5" Storz	\$1,597.00

Protek Forestry Wye

Used to divide a single flow, allowing attack lines to be extended from a main supply line. They operate easily even at high flows and have minimal friction loss. Male adapters are easily removed for seat adjustment.

720000

Chemguard Direct Attack

Direct Attack is a low, medium, and high expansion, Class A foam concentrate formulated from specialty hydrocarbon surfactants, stabilizers, corrosion inhibitors, and solvents. This formulation provides superior cold weather performance. Direct Attack has been proven effective on many deep-seated Class A fires. Can be proportioned from 0.1% to 1.0% in fresh, sea, or brackish water.

Hurst

High Pressure S799 Cutter

This tool loves getting its cutting blades around today's bigger, stronger steel with an 8.03-inch blade opening. It'll complete most B-post cuts with one bite. It also reduces tool swing challenges by cutting A and B posts from its easy-to-handle perpendicular angle. This cutter is so strong with a big bite that it gets an NFPA rating of 9 in all categories, making it the best in its class.

- Length is 32.6", Width is 11.5", Height is 7.4"
- Weight is 47.0 lbs
- Cutter Opening is 8.03"

Item #	Description	Price
272043000	Hurst HP S799 Cutter	\$7,690.00

Hurst

High Pressure 28" SP555 Spreader

Our new 10,000psi spreader is 18% lighter than its predecessor and has 13% more full-speed-ahead rescue power. In other words, you get the job done quicker.

To make the SP555 even stronger, the squeezing plates have been integrated into the arms. Its "shark tooth" removable tips have four rows of shark-like teeth, which help it bite and hold onto any material.

- Length is 32.4", width is 11.2", and height is 7.95"
- Weight is 35.7lbs.
- Spreading distance is 28.7"

Item #	Description	Price
271086000	Hurst HP 28" SP555 Spreader	\$8,691.00

Hurst

High Pressure SC758 Combi

It combines increased spreading distance (18.7 inches) and cutting opening (15.7 inches) in one tool

without compromising performance in any way. If you're entering a situation and don't know what you'll be required to do, then this is the tool you want in your hands.

- Length is 34.5", width is 11.85", and height is 7.1"
- Weight is 45.6lbs.

Telecrib® Stabilization System

Thousands of fire departments have trusted the composite Telecrib Stabilization System to stabilize their worst wrecks. Made from the strongest and most advanced Dupont™ Kevlar® infused composite, the Telecrib struts are four times stronger than steel struts, about half the weight, and are impervious to most chemical and environmental corrosion.

2998123	Confined Space Rescue Set	\$4,135.00

JPZ

Grain Auger

The auger stands out when on duty in rescue red. The Rescue Auger is to be used in grain bin/elevator rescue situations. If a person is trapped under grain, the Rescue Auger is used to auger out grain quicker than scooping to quickly free the trapped victim. The Rescue Auger should be used with a grain rescue tube. Once the tube is secure around the victim, the Rescue Auger can be placed in the tube and quickly expel the unwanted grain. The Rescue Auger is powered by any power drill. Weighing only 26 lbs, the Rescue Auger can expel grain at 1.5 bushels/minute. Easy to use with a variety of grain - corn, wheat, milo, soybeans - the Rescue Auger is a necessity for any, and every, rescue department.

Item #	Description	Price
JPZ-AUGER	Grain Auger	\$839.99

Great Wall of Rescue

Grain Rescue Device

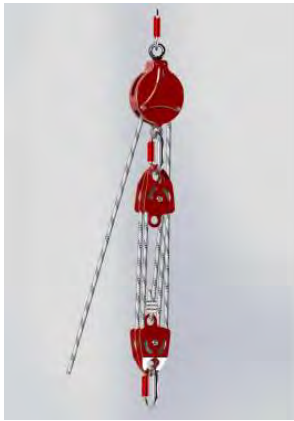

Mill Finish

Red Tuff Kote

The Great Wall of Rescue was designed to adapt to a multitude of grain entrapment rescue scenarios. The lightweight wall sections are easily maneuvered and can be aligned to form a wall, a tube, or other irregular shapes depending on the rescue situation and the number of panels available. Anodized ball-and-socket joints ensure smooth panel connection, and the joint was specially designed to have some range of movement, adding to the variability in shape.

Item #	Description	Price
BASMILL	Basic Pkg - 6 Mill Finish Panels	\$2,000.00
SUPMILL	Supreme Pkg - 8 Mill Finish Panels	\$2,560.00
BASTUFF	Basic Pkg - 6 Tuff Kote Panels	\$2,350.00

Rescue Tech

R-ALF Rescue Kit

The R-ALF pulley is the latest innovation in rescue, confined space working, and work suspension systems. The R-ALF pulley has an over-speed break built in so that the pulley will lock and hold when a fall occurs. The load rated Becket eye on the R-ALF means that it can be used in combination with Prussik

pulleys to create a 3:1 or 5:1 mechanical advantage system. Kits are complete with rope for a 33ft lift.

Dräger

PSS 5000 with Sentinel 7000

To be effective at fighting fires, you need breathing protection you can trust in the harshest environments. The Dräger PSS 5000 is an ergonomically advanced SCBA that offers increased comfort, safety, and performance. With a wide range of configurable features, such as bilateral hose routing and quick cylinder

connection, the PSS 5000 meets your needs wherever breathing protection is required.

Dräger

FPS 7000 Face Mask

R63091

Designed to offer optimal visibility, the Dräger FPS 7000 fullface mask sets new standards with 180-degree, panoramic visibility with the large distortion-free polycarbonate visor using heat-resistant thermoplastic. To prevent fogging of the visor, the innovative design provides an even distribution of air across the mask.

Dräger

FPS-COM 7000 Voice Amp

R61343

The FPS-COM 7000 provides standalone hands-free communication between wearers. Voice-activated, the FPS-COM 7000 provides full-duplex communication on one of seven userselected channels. Up to 10 users per channel can be connected without using a tactical radio, which

is especially ideal for special operations like hazardous materials response teams.

Booster Pumps

Breathing Air Booster Pump (BST4):

- 2 hp, 230 volt, single or 3-phase.
- Maximum output is 6000psi (air) from as low as 200psi inlet pressure.
- Low noise – only 60 dBA.

Oxygen Booster Pump (BST4-OXY):

- 2 hp, 230 volt, single or 3-phase.
- Are you using all of your oxygen? Now you can boost your oxygen supply from as low as 100psi to as high 3500psi. Call for more information and pricing.

Bauer

Containment Fill Stations

Our 5.5 series of containment SCBA/SCUBA fill stations were independently tested to the same rigorous standards and stringent test parameters dictated by NFPA 1901 that our CFSII series was, however in the testing of the 5.5 series Bauer utilized 110 cu. ft. 5500psi SCBA's in lieu of 88 cu. ft. 4500psi SCBA's.

- Complete with cylinder scuff guard, SCBA fill connection, fill hose, and bleed valve.
- Fill control panel.
- Mounting base.
- Bottom venting.
- Hands-free door interlock.
- Ergonomic loading height.

Wall Mounted Gear Storage – Red Rack

RRWM

The open-air design of the Red Rack, along with our Dry Kwik accessories, provides for free air circulation and helps PPE dry much faster. As a result, mold and mildew will not prematurely destroy the fibers of your gear and it will last longer. Dry gear helps reduce steam burns. Red Rack components are coated

with a durable red powder coat finish. All Red Rack storage systems include adjustable boot and helmet sleeves, label holder, adjustable apparel hooks, and a hanging pole to run the length of the unit.

- Dimensions: 20" deep x 72" tall x 18"/20"/24" length section.

CET

Glider Kit

Call your local rep to build a spec to fit your department's needs

- One Manufacturer, one shipment to track, one service and warranty source
- CET Drop-In units are built with any standard features
- CET lightweight aluminum flatbed body
- Wide variety of cabinets, doors, trays (sliding or fixed) made from high impact polypropylene or rigid aluminum sheet
- The Glider kit package can be installed on a cab and chassis with supplied "U" bolts, Teflon "dielectric" pads and brackets. The design allows the body and flatbed to withstand greater levels of stress that can distort other commercial style of flatbeds
- A truly 'off road' flatbed!
- NFPA and DOT compliant where applicable.

35CFM Gas CAFS System

CET

35CFM Gas CAFS System

Engine
