## New Standards & Codes

Recently updated standards and codes for motor vehicles and buildings require the use of laminated safety glass to mitigate against blasts, flying debris, and occupant ejections. FIRE, EMS and LAW ENFORCEMENT personnel around the world will increasingly be faced with the barrier of laminated glass in their daily operations. If the door is locked, the next fastest way to get in is through the glass.

## Features & Benefits

- RHYNO tools are FAST, POWERFUL and EASY-TO-USE! Take out a complete windshield in about 30 seconds... a side car window in about 10 seconds and cut a 4" diameter hole in 5 seconds!
- Professional-grade power tools with strong reliable battery packs
- <1 inch protrusion into occupant compartment
- Blades can be run against the skin/clothing without injury
- Smoother & safer glass edges from tight, clean cut
- Single-hand operation – right or left hand
- Cuts tight corners
- Easy to learn and operate

# RHYNO3 Windshield Cutter™ Specifications

## RHYNO3 18V Windshield Cutter Tool:

- 1/2" (12.5 mm) Max laminated glass thickness
- 1,750 Strokes/min
- >100 windshields/cutter blade set
- 20-50 windshields/charge
- 25 min. at-load run time @ 72°F (22.2°C)
- 15 min. at-load run time @ 32°F (0°C)
- Fuel gauge
- Built-in LED work light

## Battery Charger:

- 20-minute SMART charger with trickle charge
- Will not drain battery pack with power outage
- Chargers are available in Type A - 120VAC, Type C, G and I - 220VAC

## Battery Pack:

- Lithium-Ion - no memory
- Very low battery leakage <0.04V/month
- 20 min. recharge from empty
- 20 to 50 windshields/charge
